PRELIMINARY AMENDMENT

Dear Sir:

The following corrections are requested to U.S. Patent No. 6,348,070 (the "Issued Patent").

The entire specification, including the claims, of the Issued Patent is appended hereto, in accordance with 37 CFR §1.173(a)(1), in single-sided double column format.

In the Claims:

In the specification as furnished herewith, please add new claims 6-33 as follows:

6. (New) A coil system according to claim 1, further comprising at least one magnet for holding the external transmitter in place, the magnet capable of aligning with an external magnetic field so as to reduce torque exerted by the external magnetic field.
